

17 September 2020

Dear Sunny,

Congratulations! We are delighted to inform you that you have been selected as an official participant for the **2041 ClimateForce Antarctic Expedition in 2021**. You will be only 1 of 80 participants of a diverse group of people from across the world who will be participating in 2041 ClimateForce's "Leadership on the Edge" program led by Robert Swan O.B.E., as well as learning exercises led by renowned experts on issues of climate change, sustainability, and energy use. You will also be empowered with tools to implement these ideas and help protect the Antarctic, as well as the place that you call home.

You will explore the magnificent landscape of Antarctica and gain firsthand knowledge of this fragile ecosystem that is home to some of the most resilient and unique life on the planet. Your days will be filled with life lessons on leadership and team building, which will help create lifelong connections with your teammates.

Throughout the program you will learn valuable skills designed to enhance your ability to build and guide successful teams at work, home, and in your community. Our guest speakers are experts in their fields and the presentations will incorporate aspects across various sectors including corporate management, non-profit, and academia.

The purpose of this Expedition to the Antarctic is to engage and inspire the next generation of leaders like **YOU** to take responsibility for building resilient communities and to be sustainable in all aspects of living. It is **NOW** time for action in meaningful policy development and the implementation of sustainable business practices. We believe that if we get this right, we can preserve the Antarctic together.

Congratulations again. You are an extraordinary candidate and we look forward to seeing you on the 2041 ClimateForce Antarctic Expedition in 2021!

Welcome aboard,

Robert Swan O.B.E.
